

# WHAT WE DO FOR YOU BEFORE AND DURING YOUR EVENT

At Maveric Music, we don't just provide music for your special occasion, we offer more, much more! Below you will find the "basics" of what we do for EVERY event, plus our package contents.

### The "Basics"

1. Our systems use the latest technology\* of the highest quality that is tested on a weekly basis.  
We won't show up with a boom box and a stack of 30 CD's (Laugh, we've seen it!) We use professional DJ audio equipment and high quality lighting to give you an OUTSTANDING and RELIABLE show.
2. We use only the highest quality, DIGITAL music files.\*\*
  - a. This prevents skipping from dirty CD's / CD Players and from someone accidentally "bumping" the player as well.
  - b. Computerized music allows for fast indexing and searching for "that one song" you know "that one that goes like this".  
No searching through 1,000 of CD's just to find 1 song,
  - c. Imagine having to carry 3,125+ CD's to your event. That's about how many we would have to carry to match our MUSIC ONLY library of 60,000+ songs! Add to that our KARAOKE library of 290,000+ songs (about 12,000 CD's) & that's a trailer on its own!
3. We network, so your event is covered if there is an emergency \*\*\*  
Entertainment is one of the most important aspects of your event, so why risk an entertainer that doesn't have backup? Accidents happen, illnesses happen, when they do, we have a network of experienced DJ's for that "just in case" scenario to ensure your event continues as planned.
4. We are experienced with many types of events!
  - a. As event MC's, we offer our expertise & knowledge to keep your guests informed & your event flowing as you would expect. From the dismissing of tables during dinner, the timing of the toasts, to offering advice on when to do those special songs.
  - b. Our extensive guides walk you through the process to make sure we know what you want played and when as well as those songs that you just can't bear to hear any more. We can also make suggestions based on your expected crowd.
  - c. We meet with you and guide you through a plan to ensure a great time and to help eliminate the chance for error.
  - d. We have even been at events as guests when things didn't go as planned. That experience has taught us how to help you avoid those pitfalls. As the 3rd most visible person in the room, we prefer the staff at the establishment talk to us about any problems and we direct them to 1 or 2 people assigned by you to handle it. That way you aren't bothered by problems and your time isn't ruined IF something were to go wrong, you won't need to know about it until the next day!
5. All of our Entertainers are Talented and Accomplished Singers and would be happy to perform for you!  
Each of them has a wide selection of songs they are able to perform. Our ability to sing a few songs during your event adds that little extra touch of a live performance while the majority of the music is as recorded by the original artists.

\* Latest technology at the time it was purchased. \*\*Digital Music Files are far more reliable than standard CD's but nothing is 100% guaranteed not to have problems. We take every precaution to ensure a quality recording is used, unfortunately some troubled songs slip through. \*\*\* Our standard staff for special events includes two entertainers however, we reserve the right to make adjustments as needed for scheduling conflicts, not limited to additional shows, emergency situations and other situations beyond our control. Prices current as of July 2007
